### METHOD 1: PAPER SIZER

1. Carefully cut along the outline of the sizer as well as the small slit at the left end of the sizer.
2. Wrap the sizer around the intended finger with the numbers facing out.
3. Slide the pointed end of the sizer through the slit.
4. Move the sizer to the largest part of the finger, this may be the knuckle.
5. Pull tightly. The sizer must fit snugly to produce an accurate size.
6. The number that lines up at the slit represents the ring size for that finger.

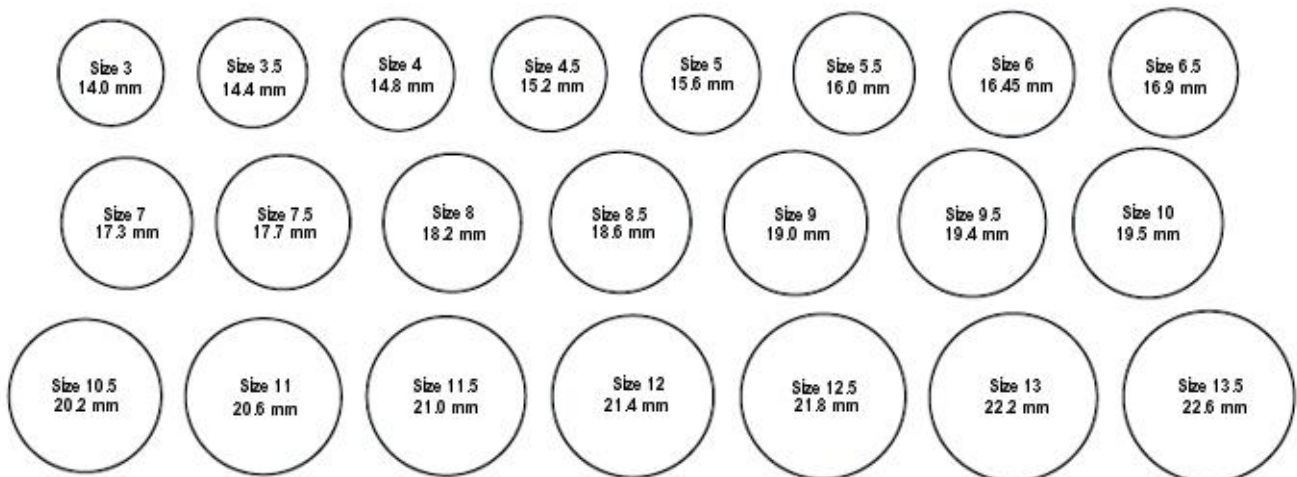

### NOTES

Avoid measuring **cold** fingers as this us when fingers are at their smallest.

Measure your finger when it is at its largest (at the end of the day).

### METHOD 2: USE CURRENT RING

2. Place the ring over the circles below, matching the inside size of the ring to the circle nearest in size.
3. If the ring falls between two sizes, use average of the two sizes.
